The Heart of Health and Wellbeing
Vesa Lakaniemi, Mayor of Eurajoki

EXPERIENCES WITH NUCLEAR FACILITIES

Facts Of Eurajoki Municipality

- 9150 inhabitants
- Three power plant units in operation
- Interim storage for spent nuclear fuel, a repository for low and medium-level waste
- Disposal for spent fuel will be in operation in 2025. The first place in the world
- Active and dynamic many-sided electricity producing municipality

SAFETY AND SECURITY

A woman with her hair in a ponytail, wearing glasses and a black jacket, is seen from behind, looking at a wall display. The wall is dark grey and features several framed images. The top image shows a snowy landscape with trees and a car. The middle image shows a tree with yellow lights. The bottom image shows a bright sun. To the right, there are more framed images, including one of a fish and another of a sun. The background shows a window with a view of a snowy outdoor area.

OPEN & TRANSPARENT COOPERATION

A white swan is captured in a dynamic splash of water, its wings partially spread and its head turned to the right. The water is a deep, vibrant blue, and the sky above is a clear, light blue. The overall scene conveys a sense of movement and grace.
